1. Vendor Account Group

Meaning : Vendor Account Group in SAP is used to classify vendors and control master data settings such as number ranges, field status, and screen layout during vendor creation.

T CODE : OBD3

Path : IMG → Financial Accounting → Accounts Receivable and Accounts Payable → Master Records → Vendor Accounts → Master Data → Preparation for Creating vendor Master Data → Define Account Groups With Screen layout (Vendors)

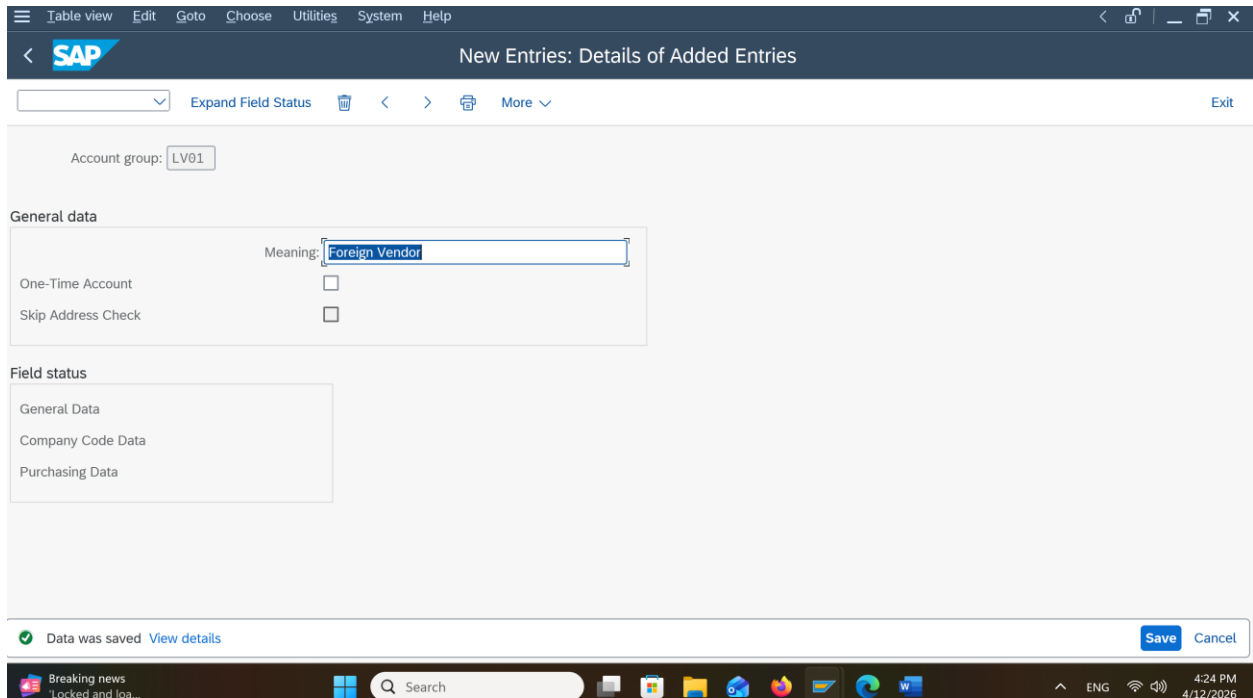

ACTION :

- Click New Entry

The screenshot shows the SAP S/4HANA 'Vendor Account Groups' overview screen. The top navigation bar includes 'Table view', 'Edit', 'Goto', 'Choose', 'Utilities', 'System', and 'Help'. The main title is 'Change View "Vendor Account Groups": Overview'. Below the title is a toolbar with various icons, including a search icon and a 'New entries' button, which is highlighted by a yellow arrow. The main content area displays a table of Vendor Account Groups. The table has two columns: 'Group' and 'Name'. The table lists various groups, including 'Walid vendor', 'موردين قطاع خاص', 'Vendor', 'Goods supplier', 'Alternative payee', 'Invoicing Party', 'Forwarding agent', 'Ordering address', 'Plants', 'Hierarchy Node', 'Vendor distribution center', and '11'. The bottom of the screen shows a 'Position...' button, 'Entry 1 of 259', and 'Save' and 'Cancel' buttons. The Windows taskbar at the bottom displays the date and time as 10:24 PM on 4/11/2026.

Group	Name
--V	walid vendor
خاص	موردين قطاع خاص
0001	Vendor
0002	Goods supplier
0003	Alternative payee
0004	Invoicing Party
0005	Forwarding agent
0006	Ordering address
0007	Plants
0012	Hierarchy Node
0100	Vendor distribution center
11	11

- Creating a vendor group for foreign suppliers in SAP to classify and manage international vendors

The screenshot shows the SAP 'New Entries: Details of Added Entries' interface. At the top, there is a menu bar with options: Table view, Edit, Goto, Choose, Utilities, System, and Help. Below the menu bar, the SAP logo is visible on the left, and the title 'New Entries: Details of Added Entries' is centered. A search bar is located on the left, and a toolbar with icons for expand, field status, and more options is on the right. The main content area is divided into sections. The 'Account group' is set to 'LV01'. Under the 'General data' section, the 'Meaning' field is set to 'Foreign Vendor'. There are two checkboxes: 'One-Time Account' and 'Skip Address Check', both of which are currently unchecked. Below the 'General data' section is the 'Field status' section, which contains three items: 'General Data', 'Company Code Data', and 'Purchasing Data'. At the bottom of the screen, there is a status bar with a green checkmark and the text 'Data was saved View details'. To the right of the status bar are 'Save' and 'Cancel' buttons. The Windows taskbar is visible at the very bottom, showing the Start button, a search bar, and several application icons. The system clock in the bottom right corner indicates the time is 4:24 PM on 4/12/2026.

5. Assign Number Ranges to vendor Account Groups

Meaning : To ensure that each vendor group receives vendor numbers from a specific number range for better organization and control.

T CODE : OBAS

Path : IMG → Financial Accounting → Accounts Receivable and Accounts Payable → Master Records → Vendor Accounts → Master Data → Preparation for Creating vendor Master Data → Assign number Ranges to vendor Account groups

Implementation Activities Edit Goto Additional Information Utilities Environment System Help

< SAP Display IMG

Existing BC Sets Apply Filter Change Log More

Structure

- Preparations for Creating Supplier Master Data
 - Define Account Groups with Screen Layout (Vendors)
 - Define Screen Layout per Company Code (Vendors)
 - Define Screen Layout per Activity (Vendors)
 - Change Message Control for Vendor Master Data
 - Develop Enhancements for Vendor Master Data
 - Adoption of Customer's Own Master Data Fields
 - Define Accounting Clerks
 - Define Industries
 - Accounts Payable Master Data for Argentina
 - Accounts Payable Master Data for South Korea
 - Accounts Payable Master Data for Saudi Arabia
 - Create Number Ranges for Vendor Accounts
 - Assign Number Ranges to Vendor Account Groups
 - Define Text IDs for Central Texts (Vendors)
 - Define Text IDs for Accounting Texts (Vendors)
 - Define Sensitive Fields for Dual Control (Vendors)
 - Carry Out and Check Settings for Withholding Tax
 - Define Minority Indicators

Action :

- Click on position and choose account group

The screenshot shows the SAP S/4HANA 'Assign Vendor Account Groups' screen. The title bar indicates 'Change View "Assign Vendor Account Groups->Number Range": Overview'. The table below lists various account groups and their corresponding number ranges.

Group	Name	Number Range
--V	walid vendor	W2
خاص	موردين قطاع خاص	CC
0001	Vendor	00
0002	Goods supplier	XX
0003	Alternative payee	XX
0004	Invoicing Party	XX
0005	Forwarding agent	XX
0006	Ordering address	XX
0007	Plants	XX
0012	Hierarchy Node	01
0100	Vendor distribution center	XX
11	11	L1

A yellow arrow points to the 'Position...' button at the bottom of the screen. The status bar shows 'Entry 1 of 259'.

The second screenshot shows the same SAP S/4HANA 'Assign Vendor Account Groups' screen, but with the 'Another entry' dialog box open. The dialog box displays 'Account group: LV01' and has a green checkmark and a red X button at the bottom right. The table below lists various account groups and their corresponding number ranges.

Group	Name	Number Range
--V	walid vendor	W2
خاص	موردين قطاع خاص	CC
0001	Vendor	00
00		
00		
00		
00		
00		
00		
01		
11	11	L1

The status bar shows 'Entry 1 of 259'.

6. Create Reconciliation G/L Account

Meaning : A Reconciliation Account in SAP is a G/L account that links subledger accounts such as vendors or customers to the General Ledger automatically.

TCODE : FS00

Path : Financial Accounting → General ledger → Master Records → G/L Accounts → INDIVIDUAL PROCEEDING → CENTRALLY

ACTION :

Three reconciliation accounts are created for the three vendor groups

Three reconciliation accounts are created for the three vendor groups, with the selection of **“Reconciliation Account for Account Type (Vendor)”**.

The screenshot displays the SAP 'Create G/L Account Centrally' window. The top navigation bar includes 'G/L account', 'Edit', 'Goto', 'Extras', 'Environment', 'Settings', 'System', and 'Help'. The main header shows the SAP logo and the title 'Create G/L Account Centrally'. Below the header, there are several tabs: 'Type/Description', 'Control Data', 'Create/bank/interest', 'Key word/translation', 'Information (C/A)', and 'Information (CoCd)'. The 'Type/Description' tab is active, showing the 'Control in Chart of Accounts' section. This section includes a dropdown for 'G/L Account Type' set to 'Balance Sheet Account' and a dropdown for 'Account Group' set to 'Liability'. Below this, the 'Detailed Control for P&L Statement Accounts' section is visible, with a field for 'P&L statmt acct type' set to 'reco. local vendors'. The bottom of the window features a 'Save', 'Continue', and 'Cancel' button bar. The Windows taskbar at the bottom shows the date as 4/21/2026 and the time as 8:56 PM.

8. Define Number Range for BP Grouping

Meaning : It is used to assign specific number ranges to Business Partner grouping for organized and controlled BP number generation.

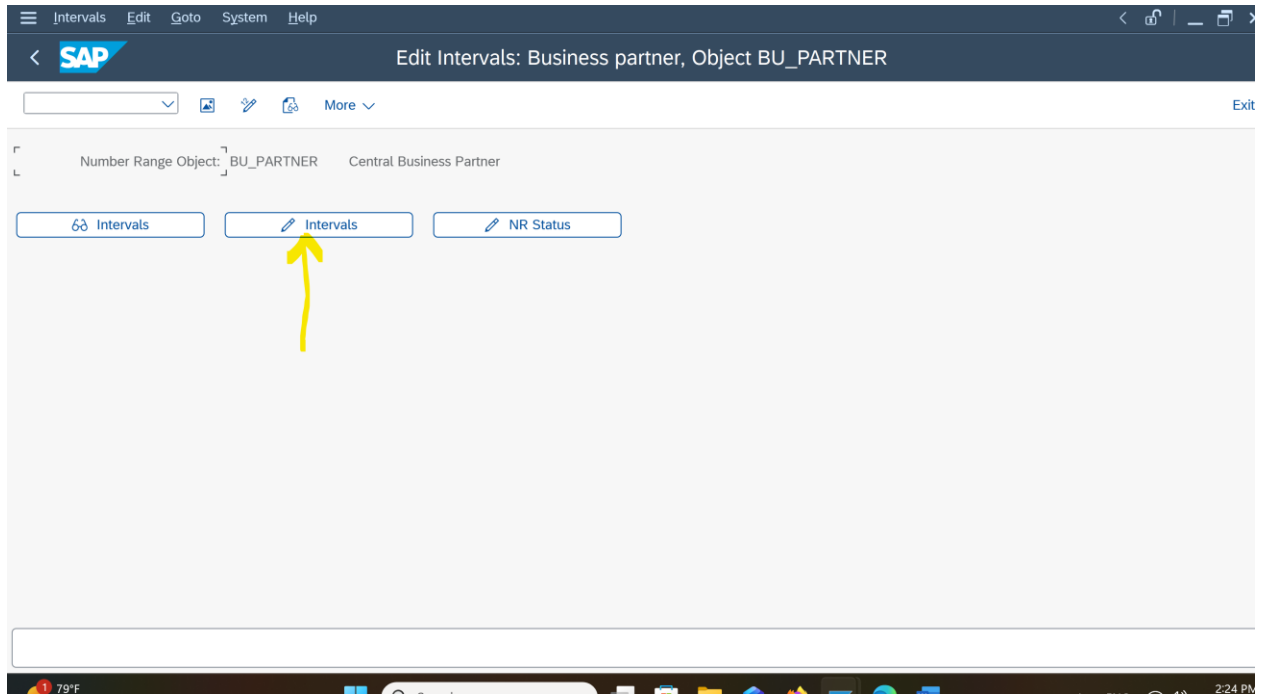

TCODE - BUCF

Path : IMG → Cross- Application Components → SAP Business Partner → Business Partner → Basic Settings → Number Range and Groupings → Define Number Range

Actions :

- Number ranges are assigned to BP groups, and it is preferable that they match the same number ranges used for Vendor Groups.

The screenshot shows the SAP 'Edit Intervals: Business partner, Object BU_PARTNER' screen with a table of number ranges. The table has columns: Number Range No., From No., To Number, NR Status, and External. The row 'BL' is selected, and its 'NR Status' is highlighted with a yellow arrow.

Number Range No.	From No.	To Number	NR Status	External

9. Define Groupings and Assign Number Ranges

Meaning : It is a configuration used to define Business Partner groupings and assign specific number ranges to control BP number assignment in a structured way.

TCODE : BUCF

Path : IMG → Cross- Application Components → SAP Business Partner → Business Partner → Basic Settings → Number Range and Groupings → Define Groupings and Assign Number Ranges

Action :

- Business Partner groups are defined and linked to the assigned number ranges to ensure organized creation of BP numbers within SAP.

10. Define Number Assignment for Direction BP to Vendor

Meaning : This setting is related to CVI (Customer/Vendor Integration) in SAP and controls the linkage of Business Partner (BP) numbering with the Vendor when the direction is from BP to Vendor.

TCODE- CVI VEND LINK

Path : IMG → Cross- Application Components → Master Data Synchronization → Customer/Vendor Integration → Business Partner Settings → Settings for vendor Integrations → Field Assignment for vendor Integration → Assign keys → Define Number Assignment for Direction BP to Vendor

Action :

The Business Partner number ranges are linked with Vendor Groups to ensure proper integration and synchronization between BP and Vendor master data in SAP.

The screenshot shows the SAP 'Change View Business Partner: Assignment of Account Groups' interface. The title bar indicates 'Change View "Business Partner: Assignment of Account Gro.": Overview'. The main area displays a table with columns: Grp., Short name, Group, Meaning, Same Nos., and Flex. Grp. A yellow arrow points to the 'New Entries' button in the top toolbar. The table lists various vendor groups, including MG01, LIEF, and others, with checkboxes for 'Same Nos.' and 'Flex. Grp.'.

Grp.	Short name	Group	Meaning	Same Nos.	Flex. Grp.
☐		MG01	MG01 LEARN391	☐	☐

☐	3100	Gift Card Vend	BBC- Gift Card Vendors	☒	☐

The screenshot shows the SAP 'New Entries: Overview of Added Entries' interface. The title bar indicates 'New Entries: Overview of Added Entries'. The main area displays a table with columns: Grp., Short name, Group, Meaning, Same Nos., and Flex. Grp. The table is currently empty, showing only the header row. The bottom status bar indicates 'Entry 0 of 0'.

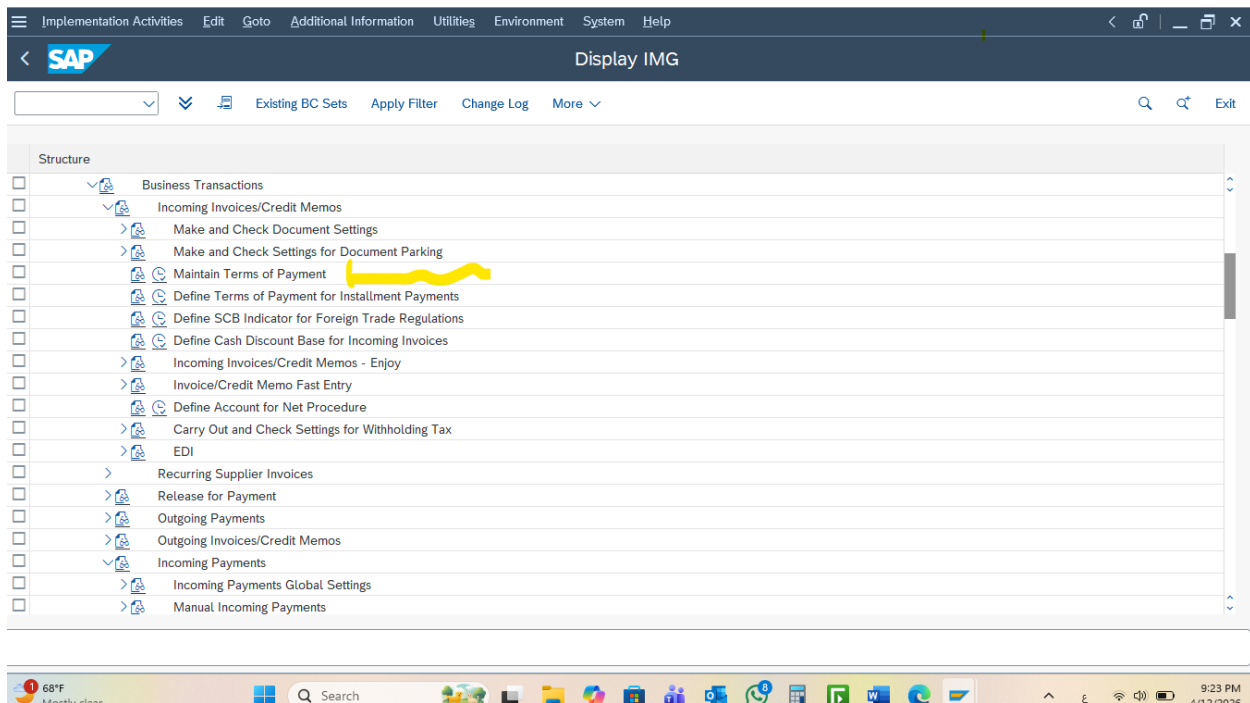

Grp.	Short name	Group	Meaning	Same Nos.	Flex. Grp.
------	------------	-------	---------	-----------	------------

11. Maintain terms of Payment

Meaning : setting up and defining the payment conditions, such as the due date, discount conditions, and payment deadlines for customers or vendors in the system.

TCODE- OBB8

Path : IMG → Financial Accounting → Accounts Receivable and Accounts Payable → Business Transactions → Incoming Invoices/Credit Memos → Maintain Terms of Payment

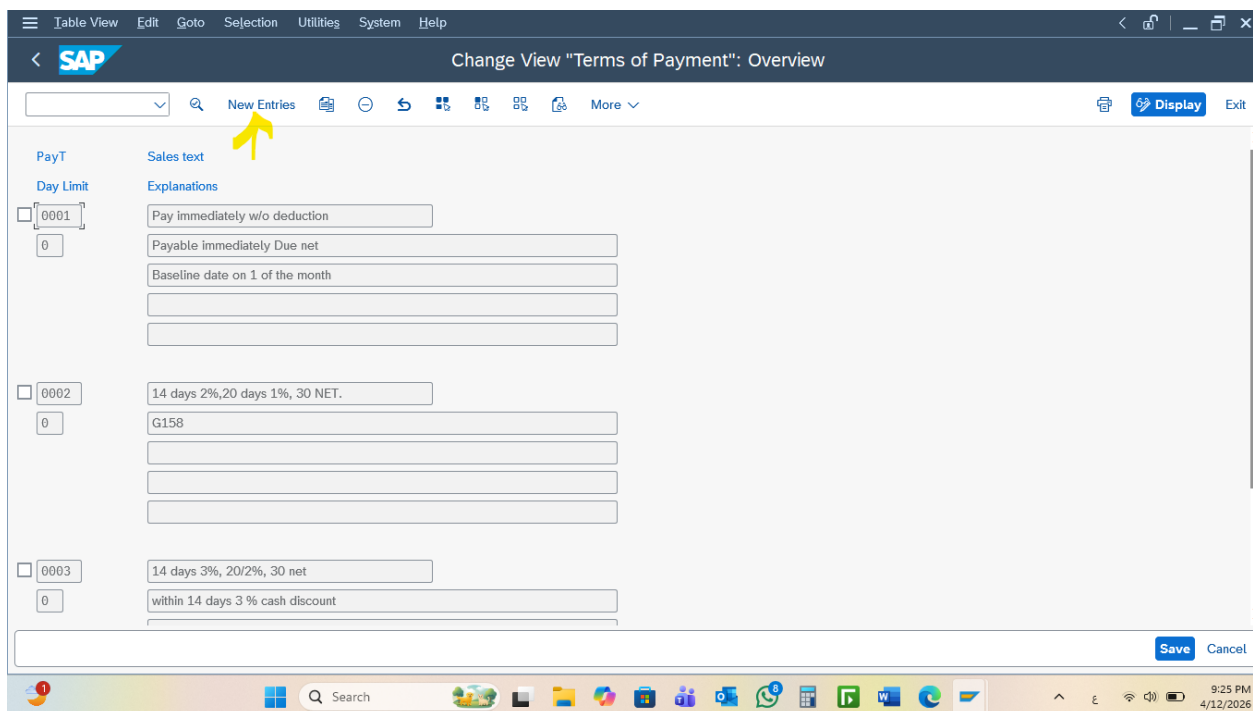

Action :

- A new entry was selected and the data was filled in by choosing the payment term code P001, which represents immediate payment without delay. The same payment term was assigned for both customers and vendors.

SAP calculates the due date based on the Document Date.

In the Payment Terms section, 100% was specified within 0 days, which means the payment is due immediately without any grace period.

The screenshot shows the SAP 'Change View Terms of Payment' interface. The title bar indicates 'Change View "Terms of Payment": Overview'. The main area is divided into two columns: 'PayT' (Payment Terms) and 'Sales text'. The 'PayT' column contains a list of payment terms with checkboxes and day limits. The 'Sales text' column contains the corresponding descriptions. A yellow arrow points to the 'New Entries' button in the top toolbar.

PayT	Day Limit	Sales text
☐ 0001	0	Pay immediately w/o deduction
		Payable immediately Due net
		Baseline date on 1 of the month
☐ 0002	0	14 days 2%, 20 days 1%, 30 NET.
		G158
☐ 0003	0	14 days 3%, 20/2%, 30 net
		within 14 days 3 % cash discount

At the bottom right, there are 'Save' and 'Cancel' buttons. The Windows taskbar at the bottom shows the time as 9:25 PM on 4/12/2026.

12. Define Terms of Payment for Installment Payments

Meaning : setting up payment terms for installment payments, such as splitting the due amount into multiple installments and defining the due dates and amount of each installment in the system.

Tcode- OBB8

- **Path :** IMG → Financial Accounting → Accounts Receivable and Accounts Payable → Business Transactions → Incoming Invoices/Credit Memos → Define Terms of Payment for Installment Payments

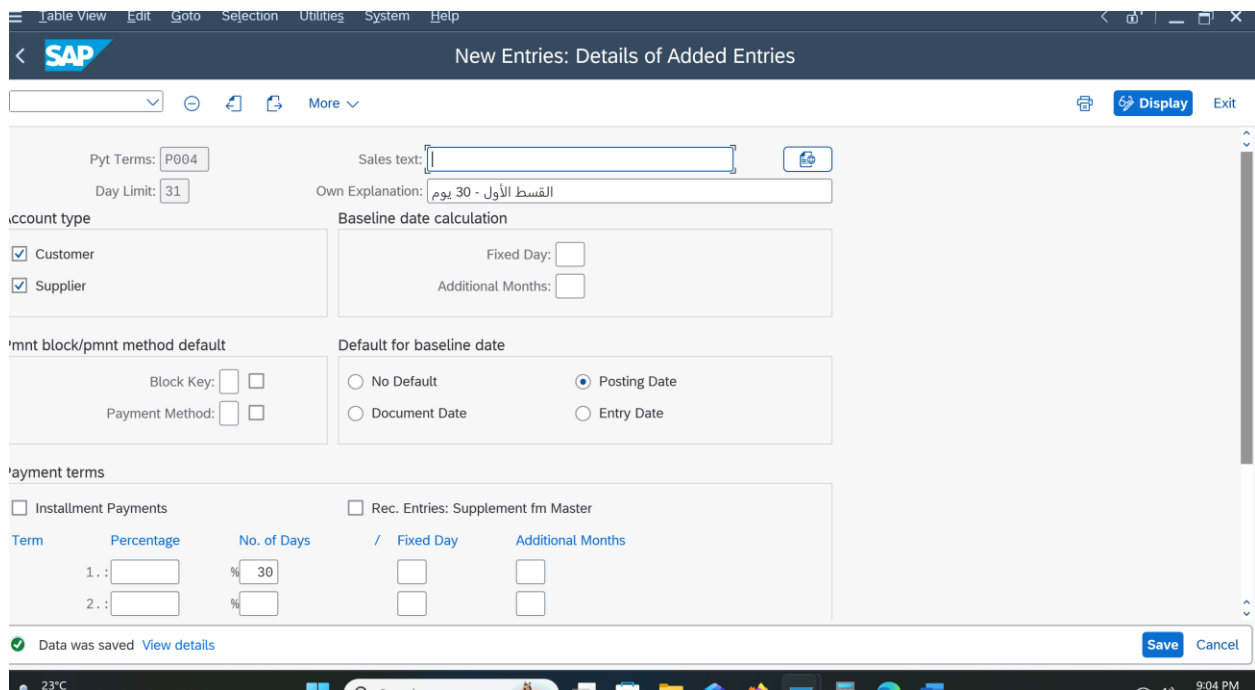

Action :

- First, two sub-payment terms are created:

The first payment term includes the first installment due after 30 days.

The second payment term includes the second installment due after 60 days.

The option to calculate the installment due date from the posting date is selected.

The screenshot shows the SAP 'New Entries: Details of Added Entries' form. The form is divided into several sections:

- Pyt Terms:** P004
- Day Limit:** 31
- Sales text:** (empty field)
- Own Explanation:** القسط الأول - 30 يوم
- Account type:** ☒ Customer, ☒ Supplier
- Baseline date calculation:** ☐ Fixed Day, ☐ Additional Months

- After saving the main payment term, go to transaction code (T-Code): OBB9.

The screenshot shows the SAP 'Change View Terms of Payment for Holdback/Retainage' screen. The title bar indicates the current view is 'Overview'. The main area contains a table with columns: 'Terms of Paymen', 'Inst', 'Percent', and 'Payt Term'. A yellow arrow points to the 'New Entries' button located above the table. The table lists various payment terms, including 0009, 0101, 0403, A151, D002, and D002, with their respective installment numbers, percentages, and payment terms. The bottom of the screen shows a 'Position...' button, 'Entry 1 of 69', and 'Save' and 'Cancel' buttons. The Windows taskbar is visible at the bottom.

Terms of Paymen	Inst	Percent	Payt Term
☐ 0009	1	30.000 0001	
☐ 0009	2	40.000 0001	
☐ 0009	3	30.000 0001	
☐ 0101	1	30.000 0002	
☐ 0101	2	30.000 0004	
☐ 0101	3	40.000 0003	
☐ 0403	1	30.000 0401	
☐ 0403	2	70.000 0402	
☐ A151	1	40.000 G100	
☐ A151	2	30.000 G101	
☐ A151	3	15.000 H011	
☐ A151	4	15.000 0001	
☐ D002	1	40.000 D001	
☐ D002	2	30.000 D001	

First Row (First Installment):

- Terms of Payment: Enter the main code that you created and saved in the previous screen, which is PI1.
- Inst (Installment Number): Enter 1.
- Percent: Enter 50.
- Payt Term (Sub Payment Term): Enter the code of the first payment term you created earlier (the one with 30 days).

Second Row (Second Installment):

- Terms of Payment: Enter the same main code PI1.
- Inst (Installment Number): Enter 2.
- Percent: Enter 50.
- Payt Term (Sub Payment Term): Enter the code of the second payment term you created earlier (the one with 60 days).

The screenshot displays the SAP 'New Entries: Overview of Added Entries' screen. The table below shows the data entered for two installments.

Terms of Paymen	Inst	Percent	Payt Term
☐ PI1	1	50.000	P004
☐ PI1	2	50.000	P005

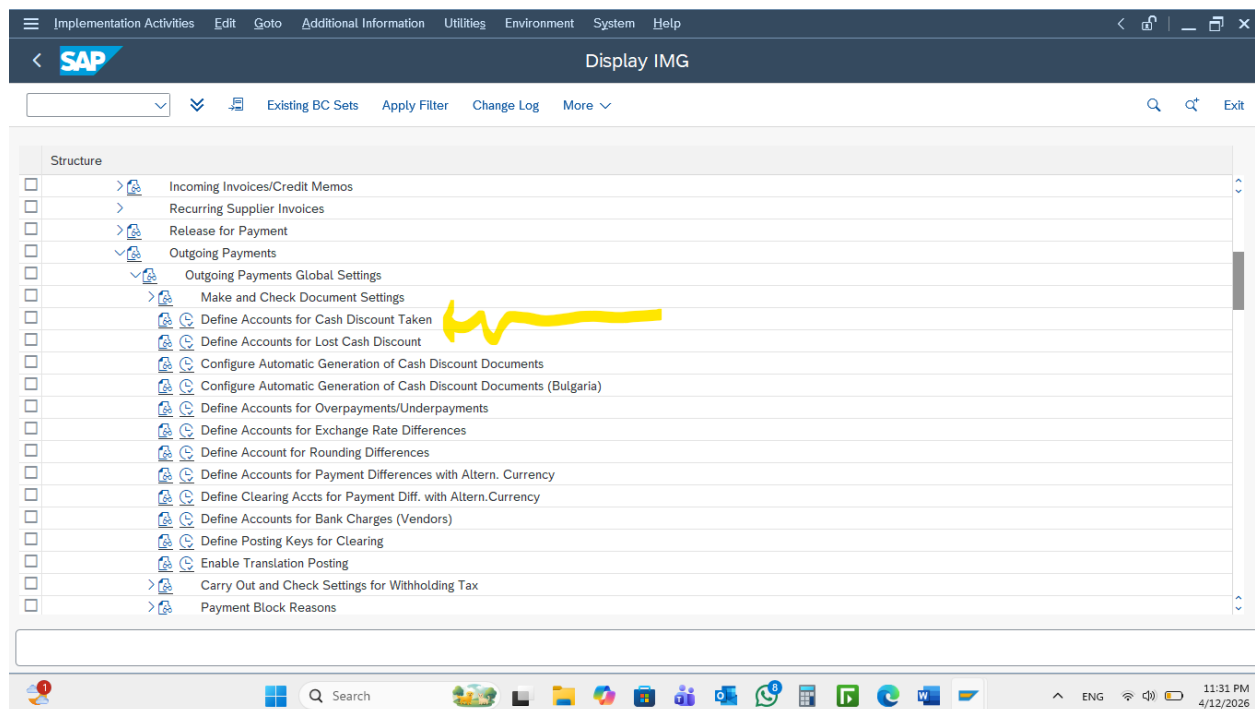

At the bottom of the screen, a status bar indicates 'Data was saved' and provides a 'View details' link. A 'Save' button is also visible.

13. Define Account for Cash Discount Taken

Meaning : specifying the general ledger account that will be used to record cash discounts received when payments are made within the discount period.

TCODE: OBXI

Path : IMG → Financial Accounting → Accounts Receivable and Accounts Payable → Business Transactions → Outgoing Payments → Outgoing Payment Global Settings → Define Accounts for Cash Discount taken

Action :

- Define Cash Discount Received in FS00

The screenshot shows the SAP 'Create G/L Account Centrally' window. The 'Type/Description' tab is active. The G/L Account is 400001, and the Company Code is TEC1 (Global Tech Egypt 1). The 'Control in Chart of Accounts' section shows 'G/L Account Type' as 'Primary Costs or Revenue' and 'Account Group' as 'Revenue'. The 'Detailed Control for P&L Statement Accounts' section has 'P&L statmt acct type' set to 'X'. The 'Description' section has 'Short Text' as 'cash disc. receive'. The bottom of the window shows a Windows taskbar with the date 4/21/2026 and time 9:25 PM.

15. Assign BP with Vendor and Customer Number Range in SAP

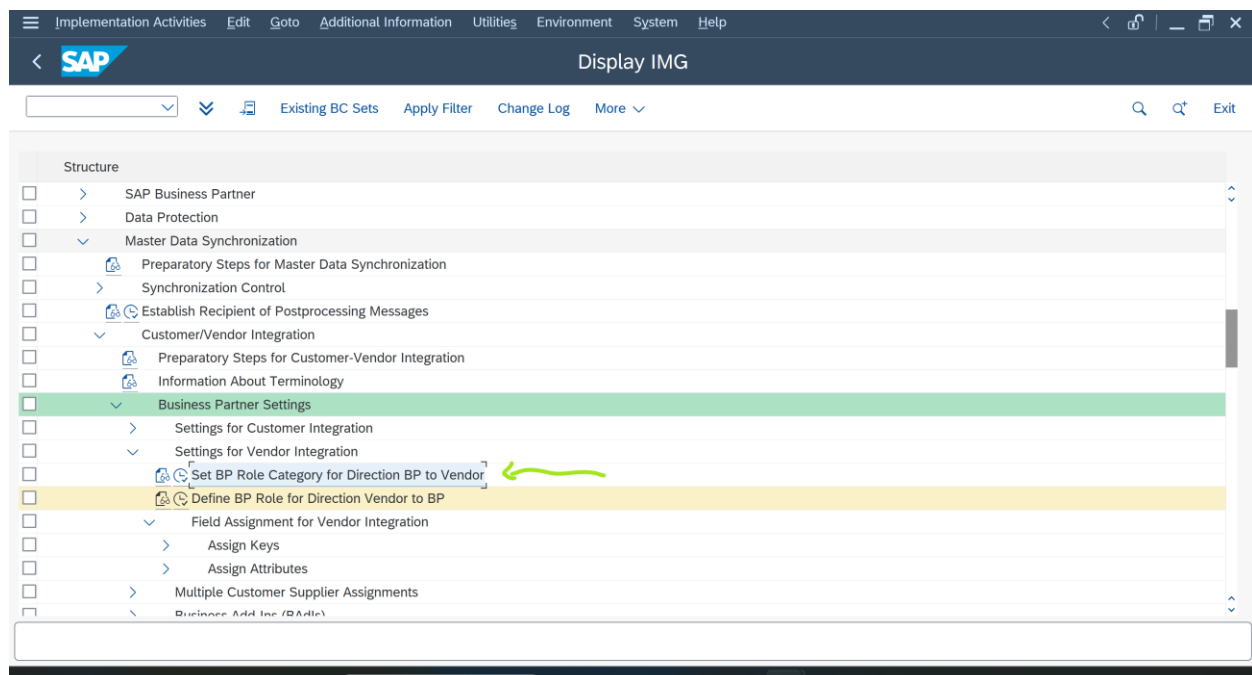

Meaning : This configuration step is used to assign and synchronize Business Partner number ranges with Vendor and Customer number ranges in SAP.

It ensures proper integration between BP, Vendor, and Customer master data through CVI.

- **SAP Path:** FOR VENDOR

Path : SPRO

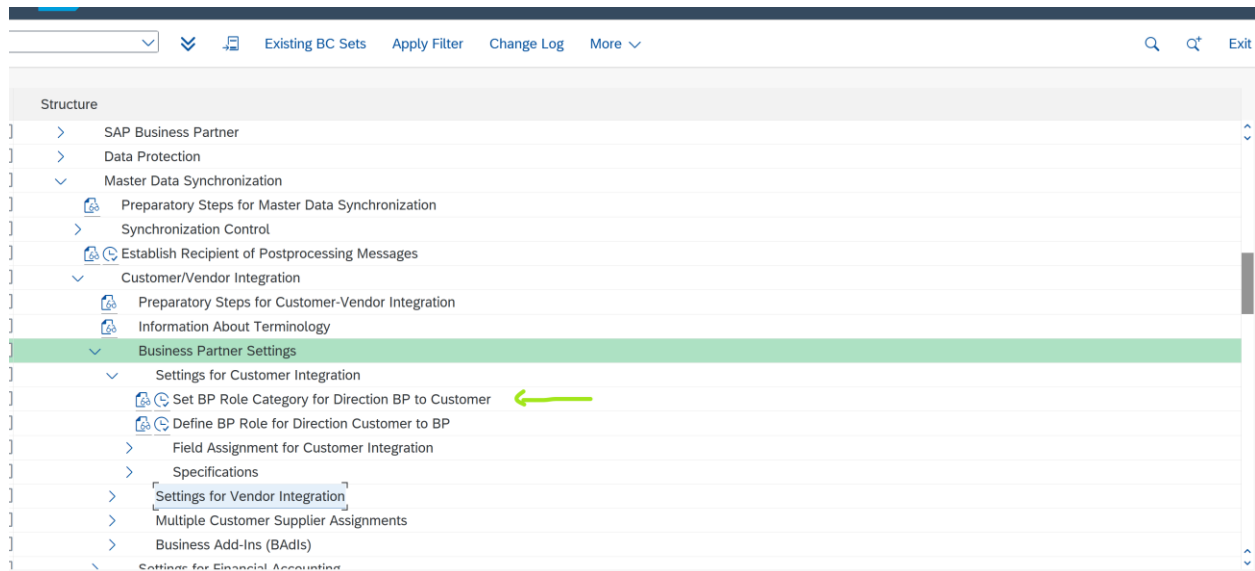

- Cross-Application Components
- Master Data Synchronization
- Customer/Vendor Integration
- Business Partner Settings
- Settings for Vendor Integration
- Define Number Assignment for Direction BP to Vendor

SAP Path: FOR CUSTOMER

SPRO

- Cross-Application Components
- Master Data Synchronization
- Customer/Vendor Integration
- Business Partner Settings
- Settings for Customer Integration
- Define Number Assignment for Direction BP to Customer

[illegible]

The Business Partner (BP) has been assigned to the same number range as the local Customer and Vendor account groups. This ensures consistent number assignment across BP, Customer, and Vendor master data and enables seamless Customer-Vendor Integration (CVI) in SAP.

THE END

THANK YOU
