- This screen is used to define how SAP converts amounts from one currency type to another automatically during posting.

When a financial transaction is posted in the Company Code Currency, SAP automatically translates the amount into another currency (such as Group Currency) based on exchange rate settings.

The screenshot displays the SAP S/4HANA interface for 'Change View - Currency Conversion Settings for Company Co.: Overview'. The Dialog Structure tree on the left shows the navigation path: Currency Types > Global Currency Conversion Setting > Currency Conversion Settings for C > Ledger > Company Code Settings for the > Accounting Principles for Led. A green arrow points to the 'Currency Conversion Settings for C' entry. The main table, titled 'Currency Conversion Settings for Company Codes', lists the following data:

CoCd	Company Name	C...	Currency type	Currency	S...	Source currency type	Exch. Rate
